IV. Household Composition

Now I would like to ask you some questions about all of the people who usually live in this house. (Definition of the household: all the people who lived and ate in this house for at least 6 months out of the last 12 months and children who are studying away from home and are supported by members of this household.)

HC1 Total number of household members (<u>Enumerator answer this question after you have found out about all of the household members</u>)	HC1
	[]

HC2 Name of household member (write down the name you would call them – their nickname, not their formal name)

HC3 How is ___ related to the household head?

HC4 Record the sex of each household member (1 - male, 3 - female)

HC5 How old was ___ on their last birthday? (If 3 years of age or less, skip to the next person.)

HC6 Is ___ in school now? (1 - yes, 3 - no)

HC7 What is the highest grade of school that ___ has completed? (see codes on next page)

HC8 What is the education system that _____ has attended?

Enumerator:

HC8A: After you have found out about all of the members of the household who have lived in this house for at least 6 months out of the last 12 months, ask if there are any people who are living in this house now, although they may not have lived in the house for 6 months out of the last 12. Write the names of these people in the table and repeat questions **HC3 – HC8** for these people. Record a 3 in the column marked **HC8A** for these people. Record a 1 in the column marked **HC8A** for the people who have lived in the household for at least 6 months out of the last 12 months.

HC8B: Enumerator uses the table from survey to check if this person is a member family from the 1998 survey or not. 1=yes; 3- no, and this family is not a substitute family (**CVR2K=1-11,17**); 5- no, because this is a substitute family (**CVR2K=13, 15 or 19**).

HC1: (After you have found out about the names of all of the household members and the individuals who live in this household not less than 6 months in the last 12 months period in **HC2**, write down the total number of household members above at **HC1** – the data entry program needs this information.)

XVI. Income

Now I would like to ask you some questions about what your household's income was over the past 12 months.

IN1 (<u>Gross Revenue</u>) What was your household's total gross income over the past 12 months?	IN1 []
---	-------------------------

Enumerator

(The goal of this section is to come up with an accurate estimate of the households (include all the household members!) income over the past 12 months AND to get as much detail as possible about the sources of the income. Some respondents will be able to tell you what their gross revenue is and then will be able to break it out by source below. Other respondents will know how much they received by source and need help adding it up to get a total. Do not worry about asking questions IN1 and 4 in order. Your calculators will be helpful!)

(The respondent may need help – try asking about revenues last month, then ask if last month was typical – if it is typical, tell the respondent what 12 times the monthly figure is, see if they agree with the amount – should it be higher or lower? By how much? Keep going until the respondent agrees with your figure. Remember this is supposed to be an estimate of the total gross income of the household – all the people who live and eat in the house for at least 6 months out of the year. Remind the respondent to include the value of home produced and consumed items -- rice, for example. Please use the following table to help you and the respondent figure out what revenues for the past year are – as much as possible fill in the table below, but do not worry about it if you do not figure out everything.)

IN2 Has anyone in your household received any of the following payments (ask about each payment in the table below) during the past 12 months? 1 - yes, 3 - no

IN4 (If yes) How much did they receive over the past 12 months? (If the respondent knows revenues sources by broader categories than the ones listed below, use column IN3 to record the category. For example, if revenues for rice farming and other crops are 20,000 Baht, then record 20,000 Baht in column IN4 row A, and in column IN3 record A, E to indicate that the 20,000 Baht is for revenues from rice farming and other crops.)
